PROFILE

I'm a Frontend Developer fueled by creativity and a knack for problem-solving. I thrive on crafting dynamic and user-friendly web applications using HTML, CSS, and JavaScript. My journey includes diving into backend integration, where I've tinkered with PHP and MySQL to bring projects to life. I'm all about secure authentication – because safeguarding user data matters. Collaboration is my jam; I love bouncing ideas off teammates to create something awesome. I'm on a constant quest to learn and grow, always eager to take on new challenges and make impact.

PROJECTS

Calculator Web Application 2023

Purpose: Developed a JavaScript-based calculator web application to provide users with a versatile and interactive tool for mathematical calculations.

- Created a dynamic calculator web application using JavaScript and HTML, providing users with a user-friendly interface for performing various mathematical operations.
- Leveraged JavaScript to implement functionality for arithmetic calculations, including addition, subtraction, multiplication, and division, ensuring accurate and reliable results.
- Implemented additional features such as memory functions and scientific calculations, enhancing the versatility and utility of the calculator application.
- Applied best practices in JavaScript development, including modularization and code organization, to ensure maintainability and scalability of the application.
- Conducted rigorous testing and debugging to identify and resolve issues, ensuring the accuracy and reliability of the calculator application in real-world usage scenarios.

Shopify Web Application 2022

Purpose: Developed a Shopify web application to enhance e-commerce functionality and streamline user experience.

- Implemented a custom Shopify web application using PHP, MySQL, and HTML, enabling seamless integration with the Shopify platform.
- Utilized PHP to handle backend operations, including communication with the database and processing user data.
- Employed MySQL for database management, ensuring efficient storage and retrieval of product and user information.
- Implemented secure authentication methods to safeguard user data, including password hashing and email verification.
- Designed and implemented user-friendly interfaces using HTML, optimizing the browsing experience for customers.

VOLUNTEER ROLES

Team Lead - CodePals Inc. Nigeria 2023

- Led a team of enthusiastic volunteers within CodePals, an organization dedicated to fostering coding skills and innovation among youth.
- Facilitated collaborative brainstorming sessions, encouraging team members to share ideas and perspectives, fostering a dynamic environment for creativity.
- Mentored and coached team members in coding techniques, providing hands-on support and guidance to enhance their skills and confidence.
